GO FURTHER

Without leaving comfort behind.

Inside — comfort.
Outside — everything else.

BUILT WITH CARE

Architecture built around the view.

SkyLodge is a premium modular glass dome, created for hospitality, wellness and private retreat projects.

Its geodesic structure combines thermally insulated aluminium with a high-performance double glazing unit to create an interior that stays visually connected to its surroundings.

Forest.

Mountain.

Coast.

Lake.

Open country.

SkyLodge does not try to replace the landscape.

It frames it.

MADE FOR ESCAPE

We believe the places

that take you furthest from everyday life should not ask you to leave comfort behind.

SkyLodge is made for exceptional stays in exceptional places.

Considered architecture, generous glazing and a carefully chosen interior create a space connected to its surroundings from the moment you arrive.

Every detail has a purpose. Every material is chosen to belong. And every SkyLodge is designed around one simple idea:

The place where you stay should be part of the experience.

A PLACE TO SLOW DOWN

We believe that places designed around the right moments make a stay unforgettable.

THE JOURNEY

From the first viewing to the first booking.

Order

STEP 01

You send a request for a model and quantity, we discuss the configuration together and confirm the order.

Production

STEP 02

Gutmann aluminium and 6+16+6 glazing units — cut and assembled in our workshop in Europe.

Installation

STEP 03

The kit travels disassembled and is erected on a level base in 3–5 days — the terrain stays untouched.

Operating site

STEP 04

We stay on after handover: technical support until everything runs smoothly, plus guidance on marketing and pricing so bookings start from day one.

PRODUCTION
2 months

INSTALLATION
3–5 days on a level
base

DELIVERY
Everywhere — quoted
per project

WARRANTY
5 yrs dome · 2 yrs electrical

QUESTIONS, ANSWERS

How long does production take?

2 months from the advance payment — every dome is cut and assembled in our workshop in Europe before it ships.

How long does installation take?

3–5 days per dome on a level base, by a SkyLodge team.
The kit travels disassembled.

What base is needed?

A level platform — quoted separately and designed to the terrain: decking on ground screws, concrete footings, timber beams or terracing.

What does the dome price include?

The fully glazed dome with a heat-recovery ventilation unit, 8 smart floor lamps and triple sockets.

What is not included?

Delivery, the base, the interior and furnishings — each quoted per project, to the client's requirements.

Which climate is it suited to?

All four seasons. A thermally broken Gutmann aluminium structure and a 28 mm glazing unit with $U_g = 1.0 \text{ W}/(\text{m}^2 \cdot \text{K})$, in 4 variants, with tempered glass and 3.3.1 laminated glass.

And in strong sun?

Choose SN solar glass in the lowest of the three transparency levels, or Silverstone mirror glass that reflects the landscape.

Can I add a bathroom or interior later?

Yes — ventilation, a furnished bathroom and interior can be added to the configuration at any stage.

What is the warranty?

5 years on the aluminium structure and glazing, 2 years on the electrical components + a 50-year service life.

How do I order?

You send a request for a model and quantity — we discuss the configuration together and confirm the order.

WHY A DOME

LESS ENVELOPE

The dome encloses the most volume with the least surface — less area to heat, fewer losses.

PANORAMIC BY NATURE

Every segment is a window; the view is not an extra, it is the structure itself.

LIGHT ON THE LAND

Low weight and point supports — the shell asks little of the ground beneath it.

QUIET STRENGTH

Loads are shared by the whole frame — no single element holds up the sky alone.

FRAME THE LANDSCAPE

One architectural language. Four glazing options.

GLAZING UNIT 28 MM

6 mm SN 29 TG • 16 mm A • 3.3.1

$U_g = 1.0 \text{ W}/(\text{m}^2 \cdot \text{K})$

SMART VENTILATOR

Mounted at the highest point of the dome — included in every model.

KEY FEATURES

- ✓ Smartphone control
- ✓ Mobile app
- ✓ Insulated compensation box
- ✓ G3 class filters
- ✓ Heat recovery up to 94%

TECHNICAL DATA

Air flow	17 / 30 / 50 m³/h
Noise level	12 / 17 / 22 dBa
Heat recovery	up to 94%
Consumption	3-7.7 W/h
Opening diameter	160-180 mm
Warranty	2 years
Energy class	A

THE FOUNDATION

A level platform — to suit the terrain.

SkyLodge is delivered without a base: all it needs is a level platform, designed to the terrain and quoted separately. One proven solution is a raised deck of composite boards on an aluminium substructure — no concrete slab, and no disturbance to the ground below.

Example detail: composite decking on an aluminium substructure — one of several foundation options.

FIXING TO THE TERRAIN

Concrete footings

Point supports — no solid slab.

Timber beams

A raised grid on stable, level ground.

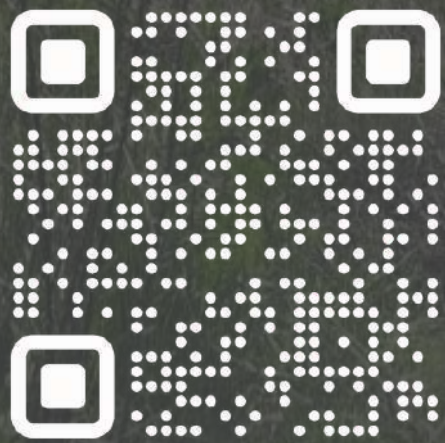

Terracing

Stepped platforms on a slope.

Ground screws

No excavation — minimal impact, removable.

The choice is made at the site survey — quoted together with the base.

skylodges.eu

NO TRACE

Travels disassembled

The dome travels compactly — no cranes or heavy machinery on site.

No concrete slab

A raised platform on point supports; the ground beneath stays untouched.

Fully removable

The ground screws come out the way they went in — the site returns to how we found it.

Built to last

Aluminium and glass — materials that age slowly and are fully recyclable.

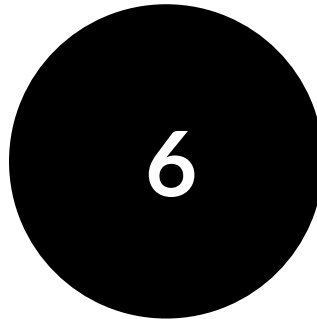

THE COLLECTION

One architectural language. Endless scales.

CUSTOM

Configure the dome to your own parameters

SKYLODGE 5 • SN 29

SKYLODGE 5 Classic
+2 accommodation

 5 m diameter
total area 20 m² · height 3.53 m

INCLUDED

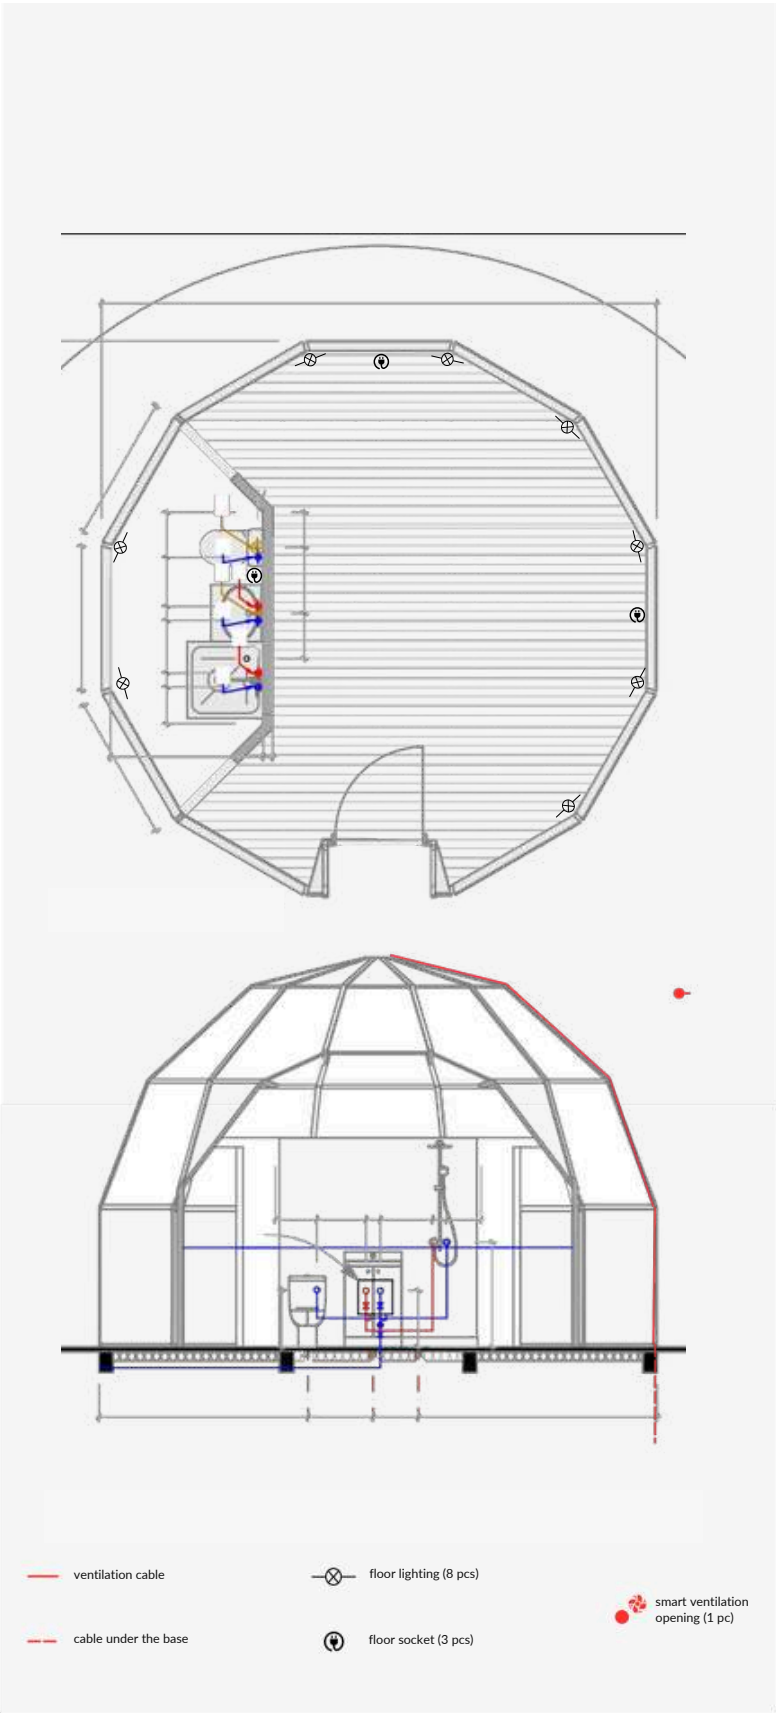

SN CONTROL
Dome price €19,300

Mirror
Dome price €17,800

The price includes the glazed dome, heat-recovery ventilation unit, 8 smart floor lamps and 2 triple sockets.
Travels disassembled — on-site installation on a level base in 3-5 days. Delivery and base — separate.

SKYLODGE 6 • SN 40/23

SKYLODGE 6 Classic
+2 accommodation + open bathroom

6 m diameter
total area 28 m² · height 4.20 m

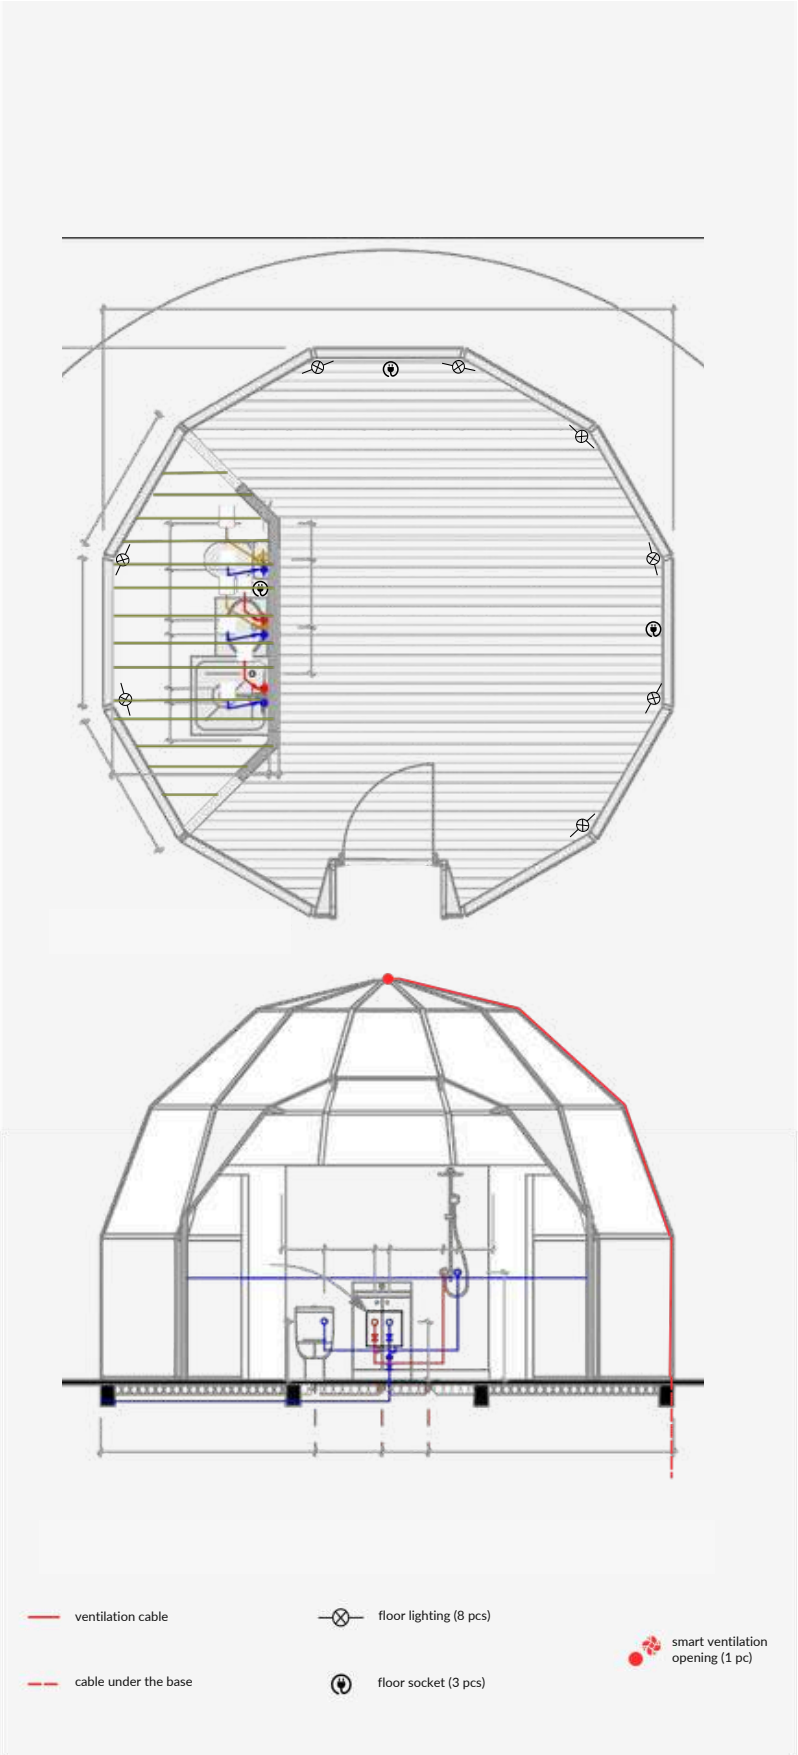

INCLUDED

SN CONTROL
Dome price €27,000

MIRROR (MR)
Dome price €25,000

The price includes the glazed dome, heat-recovery ventilation unit, 8 smart floor-lamps and 3 triple sockets.
Travels disassembled — on-site installation on a level base in 3-5 days. Delivery and base — separate.

SKYLODGE 6 Avangarde Glamping
2+1 accommodation
+ bathroom + ½ sleeping level

6 m diameter
total area 35 m² · height 4.20 m

INCLUDED

½ second level above the bathroom

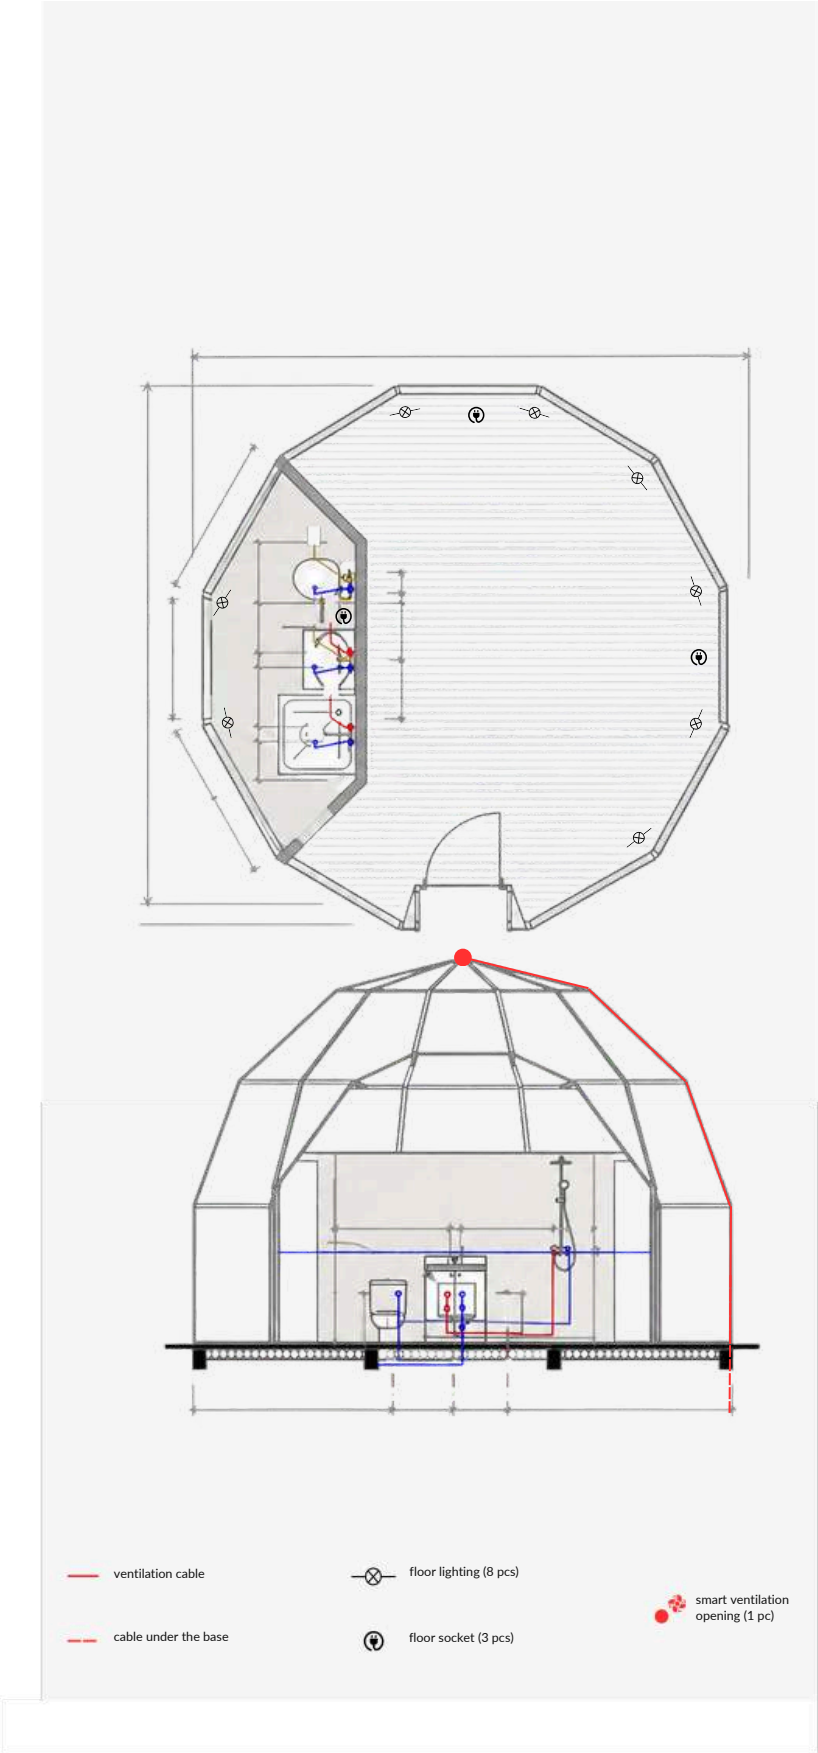

SN CONTROL
Dome price €34,000

Mirror
Dome price €31,200

The price includes the glazed dome, heat-recovery ventilation unit, 8 smart floor lamps and 3 triple sockets.
Travels disassembled — on-site installation on a level base in 3–5 days. Delivery and base — separate.

SKYLODGE 8 · SILVERSTONE MIRROR

SKYLODGE 8 Classic
+2 accommodation + bathroom

8 m diameter
total area 50 m² · height 5.54 m

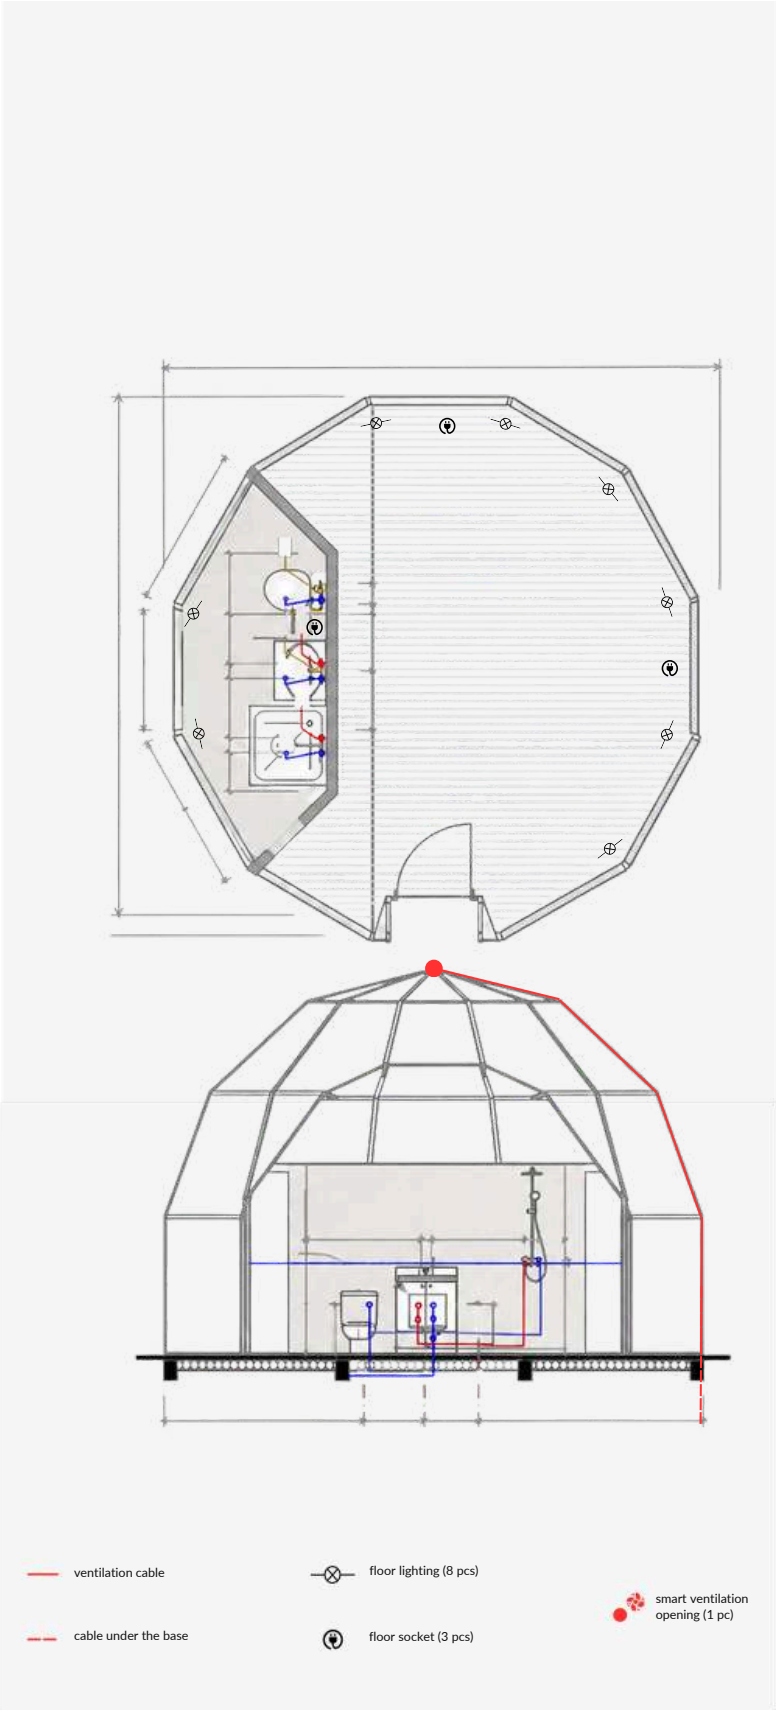

INCLUDED

SN CONTROL
Dome price €48,500

Mirror
Dome price €44,500

The price includes the glazed dome, heat-recovery ventilation unit, 8 smart floor lamps and 3 triple sockets.
Travels disassembled — on-site installation on a level base in 3–5 days. Delivery and base — separate.

SKYLODGE 8 Avangarde Glamping
2+2 accommodation + bathroom
+ ½ second floor

8 m diameter
total area 70 m² · height 5.54 m

INCLUDED

SN CONTROL
Dome price €67,600

Mirror
Dome price €62,300

The price includes the glazed dome, heat-recovery ventilation unit, 8 smart floor lamps and 3 triple sockets.
Travels disassembled — on-site installation on a level base in 3-5 days. Delivery and base — separate.

WHERE IT WORKS

One architectural language, four ways to earn: the same dome becomes a room, a ritual or a destination — it only depends on what you put inside.

GLAMPING RESORTS

Premium rooms that book themselves — the stay is the attraction.

WELLNESS & SPA

Massage, yoga or a sauna under the open sky, in every season.

RESTAURANTS & EVENTS

Private-dining domes and event spaces that guests remember.

PRIVATE RETREATS

A guest room, a studio or a hideaway at the bottom of the garden.

FLOATING PONTOON PLATFORM WITH ALUMINIUM DECKING AND PROPULSION

A guest room on the water. A new standard in accommodation.
